

KLOVE has been an amazingly positive influence on our community. They manage to get funding every pedge drive by listeners they have touched. They are one of the few stations that I know anyone in my car can listen to without being offended and be able to hear family values that have no swearing or sexual inuendoes and quality music. Their programming is rare and critical to providing Christian music and educational information that does not hold the typical media bias. Please do not allow LPFM stations to have priority over FM translator service. Keep KLOVE on the air! Thank you!
